Workshop

Tuesday, April 12th, 2016
Hofburg castle, Vienna

Self-Awareness in Cyber-Physical Systems

- ✓ NETWORKING & COMMUNITY DEVELOPMENT
- ✓ PROMINENT KEYNOTE SPEAKER
- ✓ STATE OF THE ART PRESENTATIONS
- ✓ PANEL DISCUSSION
- ✓ HANDS-ON WORKSHOP

Hands-on Workshop Highlight

In this part of the workshop, after a brief review presentation and discussion on taxonomy and self-awareness characteristics, participants will engage in hands-on activities and group discussions. These activities include exploring various possible ways of evaluating and improving self-awareness of hypothetical and real-world systems. Follow-up discussions will foster a better, common understanding of self-awareness in cyber-physical systems and respective realization methods.

CPS Week, Vienna 2016

Organizers: A. Jantsch, N. Dutt,
N. TaheriNejad, K. Tammemäe
